

DISORIENT DAO

A DAO is a collectively-owned, blockchain-governed organization working towards a shared mission

Goals of the Disorient DAO

1. Organize Disorient membership
2. Create a fair and equitable system to acknowledge and account for members' contributions
3. Further distribute decision-making processes
4. Increase interactions among members

The Disorient token

On May 19th, 2022 we minted 100 million Disorient tokens on a platform created by Disorient campers and powered by Polkadot.

As soon as you join the DAO, you receive your first Disorient tokens.

The more you participate to Disorient, the more involved you become, the more tokens you will be allocated.

Each token is an acknowledgement of your participation and your dedication to Disorient. The goal is to create a fair and equitable system to acknowledge and account for members' contributions.

The token is a central element of this effort.

How do i claim my Disorient tokens?

1. Create your DAO account:
<http://getyourtoken.disorient.info>

Token allocation started with Burning Man 2022. We plan to allocate tokens to anyone who ever attended a Disorient event. This is a gargantuan task for which we need your help.

2. Contact dao@disorient.info with your request for tokens. Include proof of attendance or participation to the Disorient event for which you wish to claim your tokens. Don't forget to include your DAO ID.

More about token allocation here >>>

Disorient membership

The DAO provides a structure to support the Disorient organization.

Disorient uses the DAO as a mechanism to account for its members. Once a D0er, always a D0er.

Campers and participants to Disorient events are invited to join the DAO and receive Disorient tokens. It can be as easy as checking a box in the registration form of a Disorient event.

What can i do with my tokens?

First, we hope your tokens remind you that Disorient loves you. Acknowledging D0ers is a central goal of the Disorient token.

We have high expectations for the DAO and the Disorient token. The future teems with opportunities.

As the DAO expands and more tokens are allocated, Disorient will offer ways for holders to leverage their holdings. Tokens will be infused with special powers. For instance, they will help define Disorient by enabling token holders to vote on issues.

As the DAO evolves and as Disorient members continue building the community and give it more meaning, tokens are expected to become central to the growth of Disorient.

Our DAO is a GlamTech structure with exponential capabilities

It is a foundation for the future of Disorient
